

Maximum Flexibility is the hallmark of the Nautilus Hyosung 7600T. Options for safe door swing - left or right, solve difficult installation challenges. Options for deposit processing technologies allow your institution to custom tailor solutions to cardholder preferences. Security options that enable you to rest assured - all in a very functional, high capacity device.

Features

Market Strength Capabilities

The 7600T supports a full range of personalization, advertising, and marketing options as well as end to end deposit automation implementations. An attention grabbing 15.1" color TFT supports these functions. As with all Nautilus Hyosung platforms, the modules are designed, engineered, manufactured and tested in house with 24/7 unattended self-service functionality as their design goal. This means the 7600T is reliable as it is functional - with a migration path for institutions with vision.

Security

The 7600T's UL-291 Level 1 rated safe has been proven in the field time and again. Additional standard features like the safe door seam lip cover and an option to hinge the safe door on the left or right mean you need not sacrifice security for convenience. Certified keyboards give you the ability to comply with PCI EPP requirements, and optional security cameras for both surveillance and cash withdrawal areas allow you to protect both your customers and your cash assets at the ATM. Optional software and transactional security features are available.

Dependability

Reliability derived from being the market leader in cash dispensing technology, and availability provided by high capacity modules, the 7600T is the ideal self-service platform for weather facing exterior walk up deployments.

Monimax 7600T is designed with "customerization" in mind. The most deployment options, the fullest feature / function options in a robust secure platform. The 7600T enabling efficient service events enhanced by access by design, and quick deployments enabled by platform flexibility. All in one highly secure, reliable platform.

Hyosung - Always By Your Side. Nautilus Hyosung is more than reliable, proven self service technology. We are a company dedicated to the success of our partners.
