

MV100

A Revolutionary Mobile ATM Makes Your Life Easier

MoniValue100, a brand-new Mobile Interface ATM from Nautilus Hyosung, provides cardless and contactless cash transaction services, enabling quick, convenient, and secure cash withdrawals.

EASE, CONVENIENCE, SPEED

No card. No queue. Simply cash. Mobile Interface ATM transactions involving one-time codes are the easiest form of cash access. The customer simply preorders cash on their mobile app, finds the nearest ATM, and taps or scans the NFC-enabled contactless card reader or QR Code on the **MoniValue100** for their cash withdrawal. Electronic receipts are delivered to the smartphone, eliminating the need for paper receipts.

ENHANCED SECURITY

MoniValue100 eliminates security risks related to lost or stolen cards or incidents of card fraud as a result of skimming. Every preordered transaction expires immediately after a predefined time, and all personal banking data in the mobile app is encrypted, therefore customers are free from the threats of possible fraud.

INNOVATIVE DESIGN

The simple design with a 10" one-touch display provides a more intuitive look and feel for customers. The innovative design of **MoniValue100** invites customers to a truly interactive experience, securing your investment for generations to come. **MoniValue100** provides customers with a new, complete, and convenient self-service experience.
