

MX8600

Increased Value Through Innovation and Security

The **MX8600** is the ideal solution in transforming branch activities from transactional to relationship growth. Customers are able to easily self-serve cash withdrawals including specific denomination selection and make deposits using Nautilus Hyosung's state-of-the-art recycling technology. While customers enjoy an improved experience, you benefit from the efficiencies and savings of improved cash management. With the **MX8600**, you are ready for the future of retail banking.

OPTIMUM SOLUTION

Advanced cash recycling technology built by Nautilus Hyosung will help financial institutions lower cash management costs, and improved availability of their self-service network with **Monimax8600**'s totally unique and compact design enhances the efficiency of the branch.

UNSURPASSED FLEXIBILITY

The advanced cash recycling technology built by Nautilus Hyosung in the **Monimax8600** will help financial institutions benefit from cash dispensing, cash deposit, and recycling. In this manner, cash is efficiently managed. All five cassettes can be operated independently in dispense, deposit, and recycling mode to enable optimum utilization for effective self-service operations. With the addition of a check acceptance module, check deposit is enabled.

PROTECTION YOU CAN COUNT ON

Compliant with worldwide security standards, the **Monimax8600** can easily integrate into existing network and self-service monitoring solutions, providing seamless information for effective management.

MAXIMUM RELIABILITY

Ease of maintenance and simplified service ensure high availability and uptime with little operational intervention. The **Monimax8600** is designed and engineered with the quality and craftsmanship you have come to expect from Nautilus Hyosung.
